## Online College Prep Modern World History

+ For Credit

This is an ONLINE version of Modern World History requires students to complete work and stay up-to-date on assignments without as much oversight from the course instructor. All the tests, quizzes, and assignments will be on the class page there is no need to come onto campus. Students will submit essays through their SFC email account.

Students will study major eras and turning points in modern world history, from the 14th century through the present, including the cause and course of the two world wars in the 20th century. Students will trace the rise of democratic ideas and understand the historical roots of current world problems and issues. The objective of this course is to help students gain a foundational knowledge of modern world history. The course will help students acquire an understanding of, and an appreciation for other cultures both past and present. Students will develop and practice skills of critical thinking, speaking/presenting, writing, discussing, note-taking, debating, and processing information from a variety of media. In addition, the course will focus on history through a biblical worldview and how God's hand is evident throughout the course of modern world history.

## ACADEMIC COURSES

### Kindergarten Readiness Camp

Kindergarten Readiness Camp is a wonderful opportunity for students to get a head start in kindergarten. Students will spend time in the kindergarten classroom, on the playground, and in other areas of the campus. They will become familiar with kindergarten materials and begin to learn kindergarten skills, such as writing their name “the kindergarten way.” They will also become familiar with class routines and expectations. In addition, this camp experience will help rekindle or create new relationships with friends and the kindergarten teachers. Kindergarten Readiness Camp will help students feel “ready to go” when school starts, as the beginning of school stress will be minimized and will give them an academic, social, and emotional advantage.

### Geometry of the SAT, SAT Math Level 2 and the AMC

Part I: The purpose of this class is to help reinforce and build on the concepts students learned in geometry and to help students with the SAT and SAT Level 2 Math exams. Geometry is frequently on the American Mathematics Competition (AMC), the largest mathematics competition in the world. Top universities are requesting a student’s AMC score for STEM majors—as such there will be a strong focus on problem solving.

Part II: Topics covered are more advanced and should be taken after Part I (unless the student has taken SFC Advanced Math class).

Prerequisite: Students need to have completed a geometry math class with an 85% or above.

\*The textbook is included in class price for students who register prior to July 15, after July 15 students are responsible for purchasing the books in addition to the cost of the course.

## ENRICHMENT CAMPS

### There's No Business Like Show Business: Moana

Come join us for another fantastic summer opportunity at Santa Fe Christian Schools! Campers will learn the basics of musical theater, including singing, acting, dancing, costumes, makeup, and props. Build confidence if you're a beginner, or sharpen your vocal and acting technique as a lead character if you're ready for the next step.

Auditions will be held on Monday, so come prepared with a one minute audition piece if you'd like to audition for a role. A camp production will be put on at the end of the week – open to friends, family, and the public.
